LUSITANIA WENT ASHORE DURING A DENSE FOG.

Stuck Fast Near Cape Race and It Is Feared She Will Go to Pieces—Twenty Passengers May Be Lost.

ST. JOHNS, N. F., June 26.—The Orient Steam Navigation Co.'s steamer Lusitania, Capt. McVay, from Liverpool, June 18, for Montreal, having 500 passengers on board, was wrecked last night off Cape Bolland.

The Lusitania was bound round Cape Race for Montreal, with a large cargo and a shipload of passengers. She mistook her course in a dense fog and went ashore near Renews, 20 miles north of Cape Race, before daybreak.

The ship ran over a reef and hangs against a cliff. The passengers, who are mostly emigrants, were panic-stricken. They stampeded and fought for the boats, but were overcome by the officers and crew. The rougher element among the passengers used knives.

The women and children were first landed and the men followed. The crew stood by the ship. A heavy sea was running, but at latest advices the Lusitania was holding her own. It is thought likely, however, that she will prove a total wreck.

The disaster occurred miles from the nearest telegraph station and the details obtainable at this time are meager. Several steamers are fitting out here to go to the scene of the wreck. It is expected that the large cargo of the Lusitania will be salvaged.

As this dispatch is being sent an unconfirmed report has reached here that a boatload of people from the Lusitania was upset and that 20 persons were drowned. The Lusitania was built at Liverpool by Laird Bros. in 1871. She is 278 feet 4 inches long, has 41 feet 3 inches beam and is 27 feet 7 inches deep.

CAN'T EXCLUDE UDE

INJUNCTION AGAINST EXPULSION FROM ASSOCIATION.

CASE TO BE HEARD ON MERITS

Mr. Ude Declares He Has Been Wrongfully Accused of Violating the By-laws in Renting Carriages.

Judge Fisher of the Circuit Court issued a temporary injunction Wednesday morning in the case of Frederick Ude against the Liverymen and Undertakers' Association of St. Louis, preventing the latter organization from expelling Mr. Ude from membership or in any way interfering with his business.

Mr. Ude filed suit Saturday, alleging that he was about to be expelled on the ground that he had broken the by-laws of the association in renting carriages and hearses to persons acting as undertakers and not members of the association. He denied the allegation.

As a result he said that he was prevented from hiring carriages and hearses from other members of the association. An order, he declared, had been issued by the association to its other members prohibiting them from dealing with him. As a result, he said, he could not carry on his business successfully.

He further contended that the association was illegal in that it set a uniform price to be followed by members in hiring out carriages and hearses. The order of Judge Fisher will remain in force until the case can be heard on its merits.

GERMAN EXPORT TRADE.

It Has Increased With the Philippines and Decreased With Africa.

WASHINGTON, June 26.—An interesting report showing the effect of the wars in South Africa, the Philippines and China on the German export trade for the past few years has been received at the state department from Consul Kohl at Stuttgart. Germany's exports to the Transvaal fell off nearly \$2,500,000 in 1900, as compared with 1899. On the other hand, her exports to the Philippines increased from \$242,000 in 1899 to \$1,499,400 in 1900. Her trade with China also showed a slight increase in 1900 over the preceding year. In exports to Cape Town the statistics showed an increase in 1900 as compared with 1899 of about \$200,000, and a decrease of about the same proportion as compared with 1898.

English Girls to Have an Inning.

It is cheering to learn that "girls are to be fashionable this year," says a London newspaper. Last season was distinctly a man's season. The secrets of artificial youth have been fathomed to their depths. Girls were invariably cut out by members and even the grandmothers. The generations got mixed up inextricably from parents looking so much younger than their children.

HIS LIBERTY WAS MOST BRIEF

Gray-Haired Mr. Barnekoff, Prosecuted by His Stenographer, Rearrested as He Left the Court.

CHICAGO, June 26.—Fred Barnekoff, gray-haired president of half a dozen Alaska mining companies and middle-aged breaker of numerous hearts, breathed a most pure air of liberty as there was to be found in Pacific avenue just between the Harrison street police station and the railroad yards for three minutes today. Then two burles, who were constables' stars and work from Justice Richardson's court, rearrested him, and Violet Cable stared at him in glassy contempt.

Violet Cable is the 40-year-old stenographer who gave her heart and \$600 into Barnekoff's keeping when Barnekoff was her fiancé.

She got her heart back. The four hundred is another story. The story of it had just been finished before Justice Prindiville and when Miss Cable's attorney failed to get Barnekoff sentenced to death or penal servitude he nolle prossed the case in disgust.

Then Barnekoff, on the arm of his full-grown son, started to walk down town. It was then that the constables acting under the eye of the stenographer gobbled him up.

The same story will have to be told over again before Justice Richardson. In brief, it is a narrative of how Barnekoff, advertising for a wife, secured Miss Cable's consent to an engagement, told her he wanted to marry her and take her to Alaska, and then how he got \$600 of her money without giving her anything except some flowery talk about his home on the Chilkoot pass or some other place where "it would be lovely to be now."

Barnekoff has the comforts of philosophy. "They didn't get me before Prindiville," he says. "They can't do it now. It's too hot for worry."

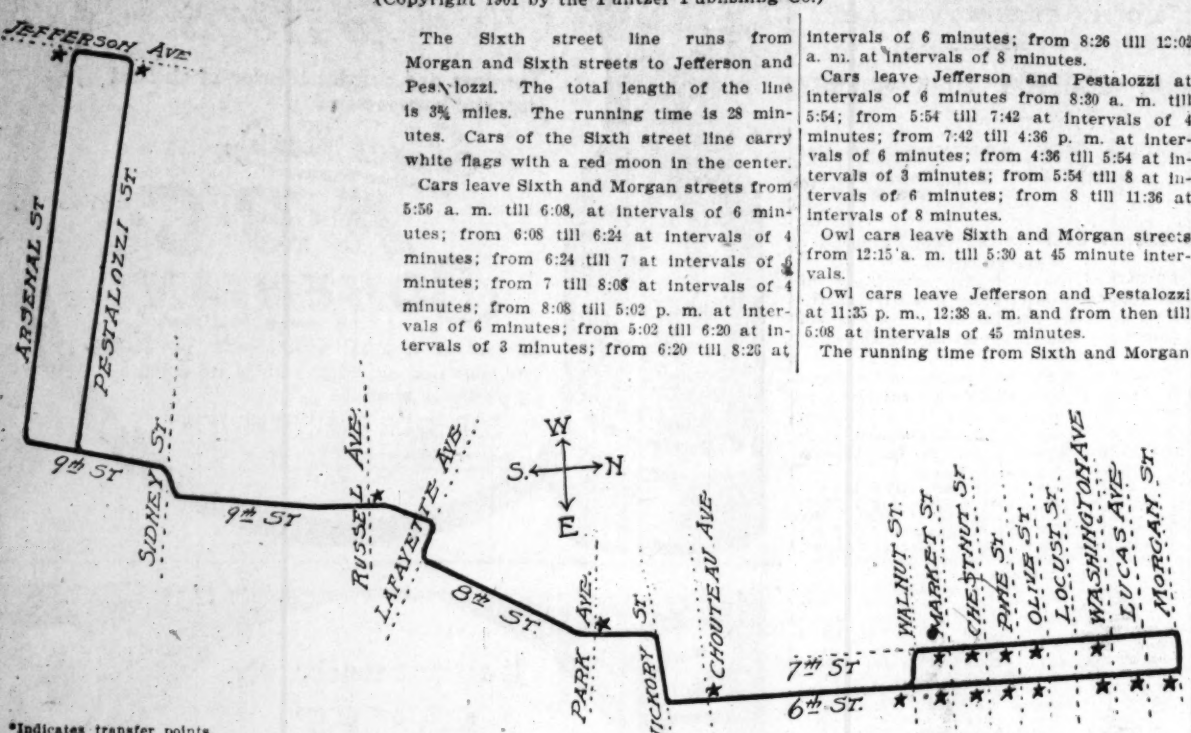

Violet Cable files a dissenting opinion.

WANTS BONDS AND DIAMONDS

SHE ASSERTS THAT THEY ARE BE-
ING WITHHELD UNLAWFULLY.Miss McPherson Acquired the Prop-
erty Through Her Mother, Who
Was a St. Louisian and Who
Died in 1867.

Jessie May McPherson, a society belle of Rochester, N. Y., has filed suit in the United States Circuit Court to force the Mississippi Valley Trust Co. to reimburse \$20,000 in bonds, securities and diamonds which she claims as heir to the estate of her stepmother, the late Mary B. McPherson of St. Louis.

Attorney Chester H. Krum, who represents Miss McPherson, told the Post-Dispatch Wednesday that Mrs. McPherson died in 1867, as she was preparing to join her husband, William McPherson, an attorney of Rochester and the father of the present claimant.

Mrs. McPherson died intestate and her property was claimed by two brothers, who reside in St. Louis and other relatives scattered throughout Missouri.

The property which is held by the Mississippi Valley Trust company, which was appointed administrator of the estate, consists of ten bonds of the Union Depot Railway Co., stock, 100 shares of the Adams Mining Co., 50 shares of the Granite Mountain Mining Co. and bonds of other corporations, including some of the Fair Grounds Real Estate Co.

To this is added a quantity of diamonds and jewelry which was the personal property of Mrs. McPherson, together with \$500 in cash.

In addition Miss McPherson asks for damages to the extent of \$2000 for what she declares to be the unlawful detention of her inheritance.

A final order of distribution of the property was recently made in the Circuit Court of this city, in which the court provided for the Missouri relatives of the deceased, but made no provision for the immediate family of the testator.

"Mrs. McPherson was formerly a Mrs. Leath," said Attorney Krum, "and she was given to understand that she accumulated the property through her father, who had two brothers in St. Louis, who are unknown to me, I am unfamiliar with the antecedents."

JAPAN IS NOT BELLIGERENT

She Seeks Peace, but Is Prepared for a
Row With Russia if It Is
Necessary.

NEW YORK, June 26.—Among the passengers on the Kaiser Wilhelm Der Grosse was Sir Claude Maxwell MacDonald, who was British minister to China during the boxer trouble, and Lady MacDonald. Asked if he thought there was any likelihood of a conflict between Russia and Japan in the near future, Sir Claude said:

"Recent events in China might lead one to think so. Japan, however, though ready to defend any encroachments on her lawful rights, is not a belligerent nation, and is not looking for trouble with Russia if she can by any possible means avoid such a catastrophe through the usual channels of diplomacy and arbitration."

When asked concerning the story that the wife of a United States diplomat was concerned in the looting of a storehouse at the forbidden city, and that Lady MacDonald protested against the action, Sir Claude said:

"I remember the incident to which, I think, the article refers, and when I read the story in San Francisco I wrote to Gen. Chaffee. Lady MacDonald was in a party which went over the palace. When they reached the storehouse and was some talk of breaking in Lady MacDonald, the secretary of the British embassy and the Belgian and Italian representatives withdrew, they refused to have anything to do with the affair. What went on after they left I cannot say. It is not true that Lady MacDonald protested. She simply withdrew."

"Who the persons were who remained I will not say. The story was spread through the south gate under passes issued by Gen. Chaffee. Afterwards an American aide and another person came to assist to me, but I told them that there was nothing to apologize for, as I knew nothing, except that Lady MacDonald had withdrawn. Afterwards at a meeting of the representatives of the two nations had protested, and I suppose, that they were the Belgian and Italian ministers."

When asked whether he thought that the conduct of the missionaries, so far as I know, was excellent. I wrote, commending one, & Mr. Gamewell, who was in the league during the siege, and who did much good work at that trying time. Those missionaries, I think, were all right. Their position was trying. They saw the fruits of their labor swept away, their possessions taken and themselves suffering, and with all this, why should they not take what the needed?"

THREE THOUSAND PILGRIMS

HIS RECORD IN TWO WARSThis Seemed to Satisfy the Assemblage

From Afar.

Special to the Post-Dispatch.
BETHLEHEM, N. H., June 25.—"Beloved Brethren: My joy in meeting with you is my present text. When we shall meet again will be my next. I think you will all agree with me that you have heard sufficiently from me in my message. I will only look upon your dear faces and they return to my study."

To hear these words—fifty-three, to be exact—from the lips of Mrs. Mary Baker Eddy, founder, mother and leader of the Christian Science church, 8000 disciples of that cult, representing all sections of the United States, as well as Europe, Asia, Australia, journeyed to Mrs. Eddy's home, Pleasant View, in this city.

This and a glimpse of Mother Eddy was all they got for their trouble, but the enthusiasts felt that it amply repaid them. It was the annual pilgrimage of Christian Scientists, the home of the founder.

The visitors were conveyed to Pleasant View in hacks, barges, wagons and all sorts of conveyances. Many walked. The day was not a regular "scorching" day, but a pleasant one. The pilgrims were marshaled in place beneath the northeast balcony of the house. There, just at the hour of 2 o'clock, the "queen of the faith" appeared, and a hush came upon the multitude. She came in a simple dress, and with a smile of welcome before formally bowed and smiled at greeting. Then she spoke the brief message above quoted, while the audience hung upon her words.

When she bowed a farewell and the pilgrims stood in silence till she had withdrawn from the balcony. They had seen her for the first time, and they were not yet dispersed. They must see Mrs. Eddy start on her daily drive, and after half an hour of waiting, they were rewarded. Mrs. Eddy again bowed as she was driven away.

The visitors, after an inspection of the house and grounds, which were thrown open to the public, were driven to the health.

MAYOR VETOED BILLS

HOUSE OF DELEGATES THEN
PASSED BOTH OF THEM.

CITY LIGHTING BILL IS A LAW

Mayor Believed the Time Too Short,
but Delegates Recorded Their Love
of Municipal Ownership.

Mayor Wells returned to the House of Delegates Tuesday night without his approval of the two bills for municipal electric lighting plants at the City Hall and In-sane Asylum.

His action in vetoing the bills was caused by the discovery that sufficient time for the installation of the plants would not remain after the letting of the contracts. The House passed the bills over his veto.

In the message accompanying his veto the mayor expressed great regret that the shortness of time remaining before the expiration of the present contract had compelled the abandonment of the project for municipal lighting.

"It is most desirable," says the mayor, "that the city should acquire its own electric plants, but also its streets, alleys and public places. It is therefore a source of much disappointment to me that in the conscientious discharge of my duty, and for purely business reasons, I have vetoed the bills."

The mayor pointed out in his communication that, at least one month after the approval of the bills, the city must complete the execution of the contract could be completed. Only one month more would then remain for the installation of the plant. This time, the mayor says, would be a reasonable figure in time to complete its operation next year.

When the mayor's message reached the House Speaker Cronin ordered a vote on the question, "Shall the mayor's veto be sustained?"

All the members present except Mr. Reiss voted in the affirmative. The members explained, were cast, not as a criticism on the mayor, but to give emphasis to their belief in municipal ownership.

The second message containing a veto was sent by the mayor to the House in return for the bill for the increase of the force of labor at the City Hall. The mayor pointed out that the wages of assistant janitors at the City Hall are at present higher than those at the Four Courts and Courthouse.

With his veto the draft of a bill providing for the employment of 12 janitors in the City Hall at \$60 per month each, was defeated. The salary of assistant janitors at the City Hall is \$60 per month.

A CHRONIC TRAIN FLAGGER

Mrs. Teasley Stopped Every Train
That Passed Through Her Lands
For Several Years.

Special to the Post-Dispatch.
RALEIGH, N. C., June 26.—Mrs. Bowers Teasley was arrested today near Durham for having for several years persistently and strangely "annoyed" the Norfolk and Western Railway.

The road built through her land. She refused to sell the right of way and refused to accept pay for the land. Morning, noon and night she flagged trains with a flag by day and a red lantern at night, which engineers dared not pass; so her house was as regular a stopping place as any station.

She stood on the track wrapped in the American flag and refused to let the train pass. She refused to sell the land. She was charged with the railway had caused the fire, and refused to accept pay for the land.

She was arrested today while without a flag. She believed the flag protected her from one daredevil if she was not enfolded by it. She declared a mean advantage was taken of her.

SENATOR PLATT ON CUBA.

He Demands a Real Republic, Not a
Mere Dictatorship.

NEW YORK, June 26.—The next issue of the Independent will contain a paper under the caption "The Pacification of Cuba," written by Senator Orville H. Platt. In closing the writer uses these words:

"One question must be asked. Will the new government succeed? Some conditions in Cuba are favorable to success, some are not. The country is a vast, fertile, and fertile. The ordinary South American republic there. It must be a real republic, that will insure our peace and quietude. Our interest there. A mere paper republic with a virtual dictatorship, would be nearly as disastrous to Cuba and dangerous to the United States as the Spanish domination to which we put an end."

P. Yokum of the Frisco and President B. L. Winchell of the Memphis to appear before the board here on Tuesday, July 2, at 9 o'clock a. m., to answer such interrogatories as may be propounded by the said commissioners regarding a consolidation currently reported to have been arranged by and between the St. Louis & San Francisco and the Kansas City, Fort Scott & Memphis railroads, which consolidation, if effected, as represented to the said commissioners, is in violation of the provisions of sections 1062 and 1063 of the revised statutes of Missouri, 1892.

MURDER AT POPLAR BLUFF.

Stephen Clark Killed His Mistress and Stabbed Himself Fatally. POPLAR BLUFF, Mo., June 25.—Pearl Clark was brutally murdered last night by Stephen Clark, whose mistress she had been.

The woman was stabbed in the back and her brains beaten out. Clark then plunged the butcher knife into his own breast, inflicting a fatal wound. The murdered woman has been a resident of this city for several years. Her parents reside at Beard, Mo. She had been married, but her husband was killed in a railroad wreck near Whiting. After her husband's death she went to Cairo, Ill., and after a short residence there moved to Poplar Bluff. Here she became acquainted with Clark, and though the couple had never married they lived together and she assumed his name. Six months ago they quarreled and separated.

This afternoon Clark, jealous of the attentions the woman was paying to a railroad man, attacked the latter and narrowly escaped being killed. He then returned to the woman at her home, and after a few words attacked her.

Baggage by Special Delivery.

As a further accommodation to its patrons, arrangements have been made by the passenger department of the New York Central & Hudson River Railroad Co. whereby at the nominal charge of 50 cents per piece, to pay for transfer, baggage may now be checked through from the principal stations on its lines to any hotel, residence or steamship dock in New York or Brooklyn. Instead of checking to Grand Central Station, New York, only, and arranging after arrival there to have your baggage properly delivered, save yourself the trouble by asking local baggage masters to forward your baggage by special delivery. A particular style of check is used for this purpose, and as soon as your baggage reaches Grand Central Station it will be promptly delivered at the address desired without further attention on your part.—From the New York Mail and Express.

MODERN METHOD OF STONE PLACING IN BANK OF COMMERCE BUILDING.

In the new Bank of Commerce every floor is self-supporting. A ledge around the steel beam forming each floor furnishes the basis upon which the stone and brick for the outer wall. The stone for the fifth floor arrived before the stone for the lower floors, and being already cut and ready to be set, is being rapidly placed in position. When the stone for the other parts of the building arrive it will be placed in position, one story at a time. The stone will then be backed up with brick and the walls will be complete. The granite for the building comes from Maine. The big blocks for the first floor, most of which have already arrived, bear a high polish. The rest of the building will be of rough outer finish. The new way of laying stone has been employed for three or four years. The Bank of Commerce is the first St. Louis building upon which it has been used.

CANNOT BE RESOLD

FORE ESTATE PROPERTY AT 12TH AND OLIVE STREETS.

JUDGE SPENCER ENJOINED

Morton Jourdan, Who Paid \$5000

Down, Secured Injunction at Mid-

night From Supreme Judge

Gantt.

At 1 o'clock Wednesday morning Judge Gantt of the Missouri Supreme Court issued a writ of prohibition against Judge Spencer of Division No. 2 of the St. Louis Circuit Court, preventing him from ordering a resale of the Yore estate property, at Twelfth and Olive streets, which was sold at auction in May to Morton Jourdan for \$22,500.

This is the property which is to be the site of a World's Fair hotel, for which plans are now being drawn up.

The writ was served on Judge Spencer early Wednesday morning.

Morton Jourdan was the plaintiff in the case before Judge Gantt. He went to Jefferson City Tuesday, arriving there at midnight. He sought Judge Gantt at once, secured the writ and at 2 o'clock Wednesday morning returned to St. Louis with it.

The writ also prevents Judge Spencer from distributing the \$5000 paid down by Jourdan at the time of the sale. In his petition Mr. Jourdan says that the commissioners threatened to make an order providing that the \$5000 be divided among the heirs of the Yore estate.

The petition recites the order providing for the sale of the property, the sale, and its approval by the court, followed by an order to the commissioners to execute a deed to Mr. Jourdan. It says that the commissioners still have the \$5000.

The petition also recites that the commissioners threatened to make an order providing that the \$5000 be divided among the heirs of the Yore estate.

CONTRACTORS HURRYING THE ST. LOUIS VALLEY RAILROAD.

ITS LENGTH IS 152 MILES

This New Road Is Regarded by East St. Louisans as a Valuable Addition to Their Shipping Facilities.

Three hundred teams and 300 men were put to work in Monroe County, Illinois, Monday, grading and laying steel for a new railroad that is to enter East St. Louis. It is being built by the St. Louis Valley Railroad Co., composed of local promoters.

It is claimed that the Goulds are back of the enterprise and financing it.

The route extends from East St. Louis to East Cape Girardeau, Ill., where it is designed to connect with the Cotton Belt and the Southern Railway.

The line will be 152 miles in length. It will pass through Cahokia, East Carondelet, Columbia, Prairie du Rocher, Chester and Rockwood, which will constitute the northern division.

From Rockwood the line will run to East Cape Girardeau, the southern division. A bridge will be built across the Mississippi at Thebes, Ill., to establish connections with the Illinois line.

A survey of practically the same route was completed April 21 for the construction of a line by the Southern Illinois Connecting Co., which, it is said, sold out its interest to the St. Louis Valley Railroad Co. The latter will complete the road at once.

The line is expected to be completed before the spring of 1902. W. E. Guy of St. Louis is president of the company. George H. West, general counsel of the Cotton Belt, and Col. S. W. Fordyce of St. Louis are stockholders.

W. S. Forman of East St. Louis is counsel for the company.

The primary object of the road's construction is to handle the cotton traffic of the South. The line is to be constructed from the Cotton Belt line at East Cape Girardeau to the Illinois Central. The new line will be connecting link with all the roads centering in East St. Louis. It will enter the latter city at Denzies, where it will strike the new Belt Line and reach the depots and yards by its tracks.

The Engineer Hanson arrived in East St. Louis Tuesday afternoon and will be in charge of the work of grading at that end of the line.

Mr. Forman informed the Post-Dispatch Tuesday that the construction force would be doubled all along the route to expedite the building. The new line is looked upon by the citizens of East St. Louis as an important acquisition to its transportation and shipping facilities.

It is expected that the line will be completed before the spring of 1902.
